

## HTML: Section Four ~ Labs

1. Create a Web page with the following tags and characteristics:

- theme: \_\_\_\_\_
- centered, underlined heading
- background color
- three different font sizes
- two paragraphs about what JPII has to offer and its positive aspects
  - give each paragraph a subheading in bold
- link to the JPII Homepage
- link back to labfour2.html
- bulleted list of extra-curricular options
- picture of our school which, when clicked-on, takes the user to the JPII Homepage and also has a link title
- create the following internal jumps
  - top
  - extra-curricular options
  - paragraph one
  - paragraph two

**SAVE AS:** labfour1.html

2. Create a Web page with the following tags and characteristics:

- theme: Me (yourself)
- email link to you
- change the background color and text color
- two paragraphs about yourself (give each paragraph a sensible bold subheading)
  - paragraph one ~ what you want to do after you graduate and why
  - paragraph two ~ how your school is helping you achieve your goal
- numbered list of what your top three goals are in order of preference
  - give this numbered list a bold subheading
- link to labfour1.html
  - tell your user why you're linking to labfour1.html  
(ie ~ This is why my school is so great!!!)
- three pictures of field-related jobs (to match your three goals)
  - make choice #1 the largest picture, #2 smaller and #3 the smallest
- internal jumps to:
  - each paragraph
  - links
  - top
  - numbered list
  - pictures
- four links to sites which give important/interesting information about your career choices
  - beside each link, write at least two sentences explaining what the site is about
